

Department of Oral and Maxillofacial Surgery

Instructions for patients and their escorts following treatment under sedation

You and your escort/the person who will be looking after you at home should follow these instructions.

Following your treatment under sedation you will be discharged home under the care of your escort. You should rest at home and reduce your activity for the next 24 hours. You are likely to feel drowsy, disorientated and forgetful for the rest of the day as the effect of sedation takes time to wear off. You may also experience some bruising of your arm where a needle was inserted or where the sedation medication was given.

It is very important that you follow the instructions below:

1. Your escort must take you home preferably by private car or taxi for you to be looked after by a responsible adult.
2. You **must not** drive any vehicle, operate any machinery or use any domestic appliance for the next 24 hours following sedation.
3. You **must not** drink any alcohol, return to work, make any important decisions or sign any legal documents for 24 hours after sedation.
4. You should take any medicines you have been prescribed at the usual times unless instructed otherwise.
5. If you are worried or have any problems following your treatment, please telephone the Department of Oral and Maxillofacial Surgery on 01223 216380 or telephone the Addenbrooke's Contact Centre on 01223 245151 and ask for the Senior House Officer on call in Oral Surgery.

We are currently working towards a smoke free site. Smoking is only permitted in the designated smoking areas.

For advice and support in quitting, contact your GP or the free NHS stop smoking helpline on 0800 169 0 169
